*You might like to bring the parts in one by one in section A (order: tune/high/low/mid). Section B is intended as a variation or 'middle 8' (it's actually 9 bars!). Once all the parts are in the suggestion is to do 2 rounds of section A, one of section B then back to A etc for as many round as you like - but please use the song in whatever way works best for you. Enjoy!*

Plant Baby Plant is a new grassroots movement led by Robin Wall Kimmerer that invites people to reimagine our shared future through acts of care for the living world.

*'Drill, Baby, Drill, that mantra of destruction and extraction, is an intentional slap in the face to people who value land, life, health, and justice over corporate profits. Well, let's raise a garden-gloved middle finger in return. I invite you, my friends, my neighbors, my readers, my fellow citizens into a new movement called Plant Baby Plant.'*
